## Press Machines Compact

### ROMAX® COMPACT TT (TWIN TURBO)

Electrohydraulic press machine for battery operated pressing of fittings up to Ø 40 mm (plastic / multi-layer) and/or up to Ø 35 mm (metal) with 19 kN

#### Product Profile

##### APPLICATION AREA

The Romax® Compact TT is 3 seconds fast, 2.5 kg light and 19 kN strong. Through the perfect handling, the machine is particularly suitable for domestic installations, high volume pressings or service installations.

##### COMPATIBLE PRESSING TOOLS

- Press Jaws: ROTHENBERGER Press Jaws Compact starting on page 111
- Interchangeable Press Jaws: ROTHENBERGER Interchangeable Press Jaws starting on page 112

#### TECHNICAL DATA

Dimension:	336 x 143 x 76 mm (w/ 2.0 Ah battery)
Weight:	2.5 kg (without press jaw)
Piston force / hub:	19 kN / 30 mm
Nominal size:	Ø 12 - 40 mm plastic / multi-layer
	Ø 12 - 35 mm metal
Service interval:	40.000 Pressings / 2 years
Press Jaw fixture:	270° rotation
Power supply:	RO BP 18 V / 2.0 Ah Li-ion battery RO BP 18 V / 4.0 Ah Li-ion battery
Operating temperature:	- 10 °C up to 60 °C
Pressings:	Approx. 130 press cycles with 2.0 Ah battery tested with SV18 stainless steel fittings

When unused or during pre-assembly, the machine stands stably on the workbench.

The ROMAX Compact TT hanging from a ladder by the shoulder strap.

Secondary effect of the two cylinder-structure: The machine can be used with one hand.

### ROMAX® COMPACT TT Set Basic I EU

Set Basic 1 EU (No. 1000002115) includes: ROMAX® COMPACT TT Press machine, 1x RO BP 18 V / 2.0 Ah Li-Ion battery (No. 1000001652), RO BC battery charger EU (No. 1000001654), ROCASE case system 4414, without press jaws.
